

Lab: Generative AI for Storytelling

Estimated time needed: 30 minutes

Learning objectives

After completing this lab, you will be able to:

- Sign up in Zoho Analytics and upload a dataset
- Generate a report by prompting Zia AI

Welcome to the lab on **Generative AI for Storytelling**!

Overview

In this lab, you will learn how to use Generative AI to prepare a report for your data using charts and insights.

To begin, you need to create your login on the [Zoho Analytics website](https://www.zoho.com/analytics/) page.

Task 1: Sign up in Zoho Analytics

Step 1: Click www.zoho.com/analytics/

Step 2: Fill in the required information and click the SIGN UP FOR FREE button.

Note: You can sign up for Zoho Analytics using various options such as Google, LinkedIn, or a Zoho email account. The platform offers a 15-day free trial without requiring any credit card details.

The screenshot shows the Zoho Analytics website. The browser address bar displays 'zoho.com/analytics/'. The page features a navigation bar with links to DataPrep, CRM, Creator, Books, RPA, Inventory, and All Products. A banner below the navigation bar states: 'Zoho Analytics has been recognized in the 2025 Gartner® Magic Quadrant™ for ABI Platforms. READ MORE'. The main heading reads 'Go from data to insights in minutes'. Below this, three checkmarks highlight the platform's capabilities: 'Connect Data', 'Visually Analyze', and 'Get Actionable Insights'. On the right side, there is a sign-up form with fields for 'Work Email', 'Password', and 'Phone Number' (with a '+91' prefix). A checkbox for 'I agree to the Terms of Service' is present. A prominent red 'SIGN UP' button is located below the form. At the bottom of the form, it says 'or sign in using' followed by Google and LinkedIn icons.

Step 3: On the Welcome screen, click **Get Started**.

The image shows the Zoho Analytics welcome screen for a user named Pratiksha. The header includes the Zoho Analytics logo and the user's name. The main content area features a large welcome message and a 'Get started in 3 simple steps' guide. The steps are: 1. Import/Connect Data, 2. Create Reports & Dashboards, and 3. Share & Embed Reports & Dashboards. A 'Get Started' button is highlighted with a red box. The left sidebar lists various categories for data import, including All, Most Popular, Recently Added, Files & Feeds, Cloud Storage/Drive, Databases & Data Lakes, Streaming Data, Zoho Apps, Sales/CRM, Marketing, Finance, Human Resources, IT & Help Desk, ERP, and Project Management.

Welcome Pratiksha!

Zoho Analytics is an online reporting and business intelligence service that helps you to easily analyze your business data and create insightful reports & dashboards for informed decision-making.

Get started in 3 simple steps

1. Import/Connect Data
2. Create Reports & Dashboards
3. Share & Embed Reports & Dashboards

Get Started

Task 2: Upload a dataset

Step 1: To download the dataset, press the **Ctrl** key on your keyboard and then, click [here](#).

Step 2: On your Zoho Analytics homepage, select **Local Drive**.

The image shows the 'Import Your Data' page in Zoho Analytics. The header includes the Zoho Analytics logo and the user's name. The main content area displays a grid of data sources under the 'Most Popular' category. The 'Local Drive' option is highlighted with a red box. Other options include Feeds/URLs, Google Drive, Zoho WorkDrive, SharePoint, Google BigQuery, Amazon RDS, Amazon Redshift, MSSQL, Zoho CRM, Google Ads, and Facebook Ads. The left sidebar lists various categories for data import, including All, Most Popular, Recently Added, Files & Feeds, Cloud Storage/Drive, Databases & Data Lakes, Streaming Data, Zoho Apps, Sales/CRM, Marketing, Finance, Human Resources, IT & Help Desk, ERP, and Project Management.

Import Your Data

Import your data from a wide variety of sources to create insightful reports & dashboards.

Step 2: Enter the following prompts one by one in the Zia AI prompt bar and generate all the charts through Zia.

Prompt 1:

Show a line chart of total revenue grouped by month using the Order Date column.

Sample output

You can click **Zia insights** icon on the top-right corner to see the detailed insights of the generated chart as shown below.

Prompt 2:

Create a bar chart of the top 10 products by total revenue.

Sample output

Prompt 3:

Create a pie chart showing each product's contribution to total revenue.

Sample output

Prompt 4:

Create a pivot table with product name, total quantity ordered, and total revenue.

Sample output

Step 3: After generating all charts go to **Dashboard** and select **Create new Dashboard**

Step 4: Drag and drop the dataset in the report section.

Step 5: Click **Save**, enter the dashboard name, and click **Ok** to save the dashboard.

Task 4: Finalizing the charts to be used in the report

Step 1: Go back to Zia, save, and add the charts to the dashboard one by one that you created earlier.

Repeat the same step to add the other charts to the dashboard.

Step 2: Once the charts are added, go to the dashboard to find the charts that you have added.

Task 5: Saving and sharing the report

Step 1: Go to the **View Mode**.

Step 2: To export the dashboard, click **Export** and select the appropriate option to download the dashboard.

The dashboard displays a table titled 'Total Quantity Ordered grouped by Product'. The table lists the top 10 products and their total quantities ordered.

	Product	Total Quantity
1	Chair	16
2	Desk	12
3	External Hard Drive	10
4	Headphones	10
5	Keyboard	10
6	Laptop	13
7	Monitor	10
8	Mouse	5
9	Printer	12
10	Tablet	6
Grand Total:		100

Step 3: You can also share it with your colleagues and peers. To do so, click **Share** and then select the option as per your convenience.

The screenshot shows the Zoho Analytics interface. At the top, there's a navigation bar with 'Home', 'Workspace - 1', 'Ask Zia', and a tab for 'Generative AI Report'. Below this, the report title 'Generative AI Report' is displayed with icons for star, refresh, and print. A sidebar on the left contains navigation options: Explorer, Dashboards, Reports, Data, Ask Zia, and More. The main area shows a report titled 'Total Quantity Ordered grouped by Product'. It features a table with two columns: 'Product' and 'Total Quantity'. The table lists 10 products: Chair, Desk, External Hard Drive, Headphones, Keyboard, Laptop, Monitor, Mouse, Printer, and Tablet. A 'Grand Total' row is at the bottom. An 'Edit Design' button is in the top right corner.

	Product	Total Quantity
1	Chair	
2	Desk	
3	External Hard Drive	
4	Headphones	
5	Keyboard	
6	Laptop	
7	Monitor	
8	Mouse	
9	Printer	
10	Tablet	
	Grand Total:	

Conclusion

In this lab, you have signed up in Zoho Analytics, added a dataset, and generated a report.
